

You Work Hard...Take Credit For It

Provided in collaboration by NDLTCA and Clinical Reimbursement Solutions

Presented by: Ron Orth

February 14, 2012 1:00pm – 2:30pm Central Time

The majority of our resident's require assistance with the Activities of Daily Living and the Certified Nursing Assistant is actively involved in performing the majority of assistance the each resident may require. In this presentation we will describe the different ADL tasks that they may assist with on a daily basis as well as the various levels of assistance that they may provide. We will provide real life examples to demonstrate between the different levels of assistance as well as how to accurately document them. Accurate documentation of ADLs provides us with a realistic clinical picture of our residents as well as serves to reimburse facilities appropriately for the level of care provided.

Recommended Audience: MDS nurses and C.N.A.'s.

REGISTRATION INFORMATION: **Please return this form by February 7, 2012**

Facility Name:	
Facility Address:
